Two formats, two paper sizes

Fillable PDF - type directly in the fields with free Adobe Acrobat Reader (computer, tablet or phone), then save, print or email.
Word (.docx) - edit everything: wording, prices, add your logo. Opens in Microsoft Word, Google Docs (File > Open > Upload) or Pages.
Each format comes in **US Letter** and **A4**.

Quick start

1. Open the folder for your paper size (US-Letter or A4).
2. Open the Word files and replace "YOUR LOGO" with your logo; add your company details and prices (Price List, Agreement fees).
3. Save your own copies as PDF, or use the fillable PDFs as they are.
4. Use them in order: Intake Form at the walkthrough, Estimate, Agreement, Key Authorization, Checklist at each visit, Invoice.

Tips

1. Fillable PDFs: use Adobe Acrobat Reader for the best result; some browser viewers do not save typed fields.
2. Print the Checklist double-sided and keep a copy in each client file.
3. Keep signed agreements for at least the length of the service plus one year.

Important

These documents are general templates, not legal advice. Laws differ between states and countries: have your agreement reviewed by a local professional before using it.
