START HERE

Thank you for your purchase! This kit gives your handyman or contracting business the 8 documents you need, from the first call to the final sign-off and invoice.

What's inside

01	**Independent Contractor Agreement** - Client - contractor terms
02	**Job Estimate** - Valid for 30 days
03	**Work Order** - Job details for the crew
04	**Change Order** - Changes to the original agreement
05	**Material List** - Plan and track job supplies
06	**Job Completion & Sign-Off** - Final walkthrough
07	**Invoice** - Thank you for your business
08	**Client Intake & Job Request** - First call / site visit

Two formats, two paper sizes

Fillable PDF - type directly in the fields with free Adobe Acrobat Reader (computer, tablet or phone), then save, print or email.
Word (.docx) - edit everything: wording, prices, add your logo. Opens in Microsoft Word, Google Docs (File > Open > Upload) or Pages.
Each format comes in **US Letter** and **A4**.

Quick start

1. Open the folder for your paper size (US-Letter or A4).
2. Open the Word files to replace "YOUR LOGO" with your logo and add your business details, license number and rates.
3. Save your own copies as PDF, or use the fillable PDFs as they are.
4. Use them in order: Client Intake at the first call, Job Estimate, Contractor Agreement, Work Order and Material List during the job, Change Order if the scope changes, then Job Completion and Invoice.

Tips

1. Fillable PDFs: use Adobe Acrobat Reader for the best result; some browser viewers do not save typed fields.
2. Take before / after photos and attach them to the Job Completion form.
3. Never start extra work without a signed Change Order.

Important

These documents are general templates, not legal advice. Contractor rules, licensing and lien laws differ between states and countries: have your agreement reviewed locally before using it.

Need help?

Send me a message on Etsy - I usually reply within 24 hours. If you enjoy the kit, a review helps my small shop a lot. Thank you!
