Two formats, two paper sizes

Fillable PDF - type directly in the fields with free Adobe Acrobat Reader (computer, tablet or phone), then save, print or email.
Word (.docx) - edit everything: wording, prices, add your logo. Opens in Microsoft Word, Google Docs (File > Open > Upload) or Pages.
Each format comes in **US Letter** and **A4**.

Quick start

1. Open the folder for your paper size (US-Letter or A4).
2. Open the Word files and "YOUR LOGO" with your logo; add your company details and prices (Price List, Agreement fees).
3. Save your own copies as PDF, or use the fillable PDFs as they are.
4. Give new families the Agreement, Enrollment, Medical, Pick-Up & Photo Release forms. Use the Daily Report, Attendance Log, Medication and Incident forms every day.

Tips

1. Fillable PDFs: use Adobe Acrobat Reader for the best result; some browser viewers do not save typed fields.
2. Keep one folder per child with all signed forms; ask parents to update the Medical form every 6 months.
3. Store forms securely: they contain private family and health information.

Important

These documents are general templates, not legal advice. Licensing rules and laws differ between states and countries: check your local requirements and have your agreements reviewed before using them.
