Small Business Bookkeeping 2027

Read me first - 3 minutes

1. SETUP: type your business name, tax set-aside %, mileage rate and your income / expense categories (blue cells).

2. INCOME: log every payment you receive. Category and payment method are drop-downs. The month fills in by itself.

3. EXPENSES: log every business purchase with its category. Mark it deductible (Y/N).

4. MILEAGE: log business trips. The deduction is calculated with your rate.

5. PROFIT & LOSS: your monthly and yearly profit and loss statement, by category - automatic.

6. DASHBOARD: income, expenses, net profit, margin, tax to set aside, charts - automatic.

7. QUARTERLY TAX: estimated tax to set aside each quarter, with typical US due dates.

Only type in blue-shaded cells. White cells contain formulas.

Works in Google Sheets (upload to Drive, then Open with Google Sheets) and Excel 2016 / Microsoft 365.

Sample data is included so you can see it working. Select the blue cells and press Delete when you are ready.

This is a general bookkeeping tool, not tax or legal advice. Check rates and deadlines with your accountant.

Setup

Your business details and categories

Business name	Bright Home Services LLC
Year	2027
